The status of claims in the case is as follows:

Sub C

1 1. [Currently amended] A method for creating a valid
2 chart of accounts from which an administrator can facilitate
3 and enable a requisitioner to select a valid general ledger
4 account, comprising the steps of:

5 opening an interface with an external enterprise ledger
6 system to build an appropriate chart of accounts for a given
7 company;

B2

8 pushing from an said enterprise ledger system a chart
9 of accounts with descriptions to a requisition catalog
10 system database;

11 administrator selecting from said requisition catalog
12 system database valid accounts with descriptions for a
13 given commodity and purchase period for said given
14 company; and

15 administrator then pushing a selected

16 account/description tuple to company commodity groups
17 for use in a requisition creation process.

1 2. [Original] The method of claim 1, further comprising
2 the steps of:

3 requisitioner searching against commodities and
4 catalogs in commodity description documents and
5 responsive thereto, creating one or more line items.

1 3. [Original] The method of claim 2, further comprising
2 the steps of:

3 administrator creating a company commodity document
4 including for each commodity code under each company, a
5 commodity category code, a short description, a long
6 description, key words, approvers, financial
7 information, route-to buyer by plant association,
8 preferred supplier, special handling codes all usable
9 for enabling customer selection of a correct commodity;

10 requisitioner initiating a proceed to accounting
11 process, which displays line items which may be
12 selected by said requisitioner; and

13 displaying an agent created financial worksheet with
14 fields which need to be selected or populated by
15 requisitioner derived from company commodity document,
16 based on purchase type, thereby presenting valid
17 general ledger accounts numbers and descriptions to
18 said requisitioner.
